

**Aveva Edge 2023***Effective January 8, 2024***Aveva Edge 2023 HMI/SCADA software: Development + Runtime Package**

This package includes one Development license and *one Runtime license*, with support for one Thin Client connected to the runtime (Server). You can either install both licenses on the same station (Hardkey or Softkey) or split them in two different physical licenses (Hardkey and/or Softkey). Aveva Edge 2023 development can generate applications for Aveva Edge 2023 Full runtime (Windows Desktop/Server), Embedded HMI (Windows Embedded Standard), Compact HMI (Windows Embedded Compact – formally known as Windows CE), and IoTView (non-Windows operating systems ie. Linux). All license levels support an unlimited number of communication drivers (limited by operating system and hardware).

Description	Part Number	Tags	List Price
<b>HMI/SCADA for Desktop/Server</b> <i>Dev+Full Runtime package: 64,000 tags, 1 Thin Client</i>	EDGEDR-64-N-23	64,000	\$9,720
<b>HMI/SCADA for Desktop/Server</b> <i>Dev+Full Runtime package: 32,000 tags, 1 Thin Client</i>	EDGEDR-32-N-23	32,000	\$7,335
<b>HMI/SCADA for Desktop/Server</b> <i>Dev+Full Runtime package: 16,000 tags, 1 Thin Client</i>	EDGEDR-16-N-23	16,000	\$6,340
<b>HMI/SCADA for Desktop/Server</b> <i>Dev+Full Runtime package: 4,000 tags, 1 Thin Client</i>	EDGEDR-04-N-23	4,000	\$6,285
<b>HMI/SCADA for Desktop/Server</b> <i>Dev+Full Runtime package: 1,500 tags, 1 Thin Client</i>	EDGEDR-01-N-23	1,500	\$3,565

**Aveva Edge 2023 HMI/SCADA software: Development Only**

This package includes one Development Only license with support for one Thin Client connected to the development station (Server) for testing purposes during the development of the project. Aveva Edge 2023 development can generate applications for Aveva Edge 2023 Full Runtime (Windows Desktop/Server), Embedded HMI (Windows Embedded Standard and WIN10 IoT) Compact HMI (Windows Embedded Compact – formally known as Windows CE), and IoTView (non-Windows operating systems ie. Linux). All license levels support an unlimited number of communication drivers (limited by operating system and hardware).

Description	Part Number	Tags	List Price
<b>HMI/SCADA for Desktop/Server</b> <i>Development Only: 64,000 tags, 1 Thin Client</i>	EDGED-64-N-23	64,000	\$3,955
<b>HMI/SCADA for Desktop/Server</b> <i>Development Only: 32,000 tags, 1 Thin Client</i>	EDGED-32-N-23	32,000	\$3,080
<b>HMI/SCADA for Desktop/Server</b> <i>Development Only: 16,000 tags, 1 Thin Client</i>	EDGED-16-N-23	16,000	\$2,675
<b>HMI/SCADA for Desktop/Server</b> <i>Development Only: 4,000 tags, 1 Thin Client</i>	EDGED-04-N-23	4,000	\$2,635
<b>HMI/SCADA for Desktop/Server</b> <i>Development Only: 1,500 tags, 1 Thin Client</i>	EDGED-01-N-23	1,500	\$1,325

**Aveva Edge 2023 HMI/SCADA software for Windows: Runtime Only**

This package includes one Runtime Only license, with support for one Thin Client connected to the runtime station (Server). All license levels support an unlimited number of communication drivers (limited by operating system and hardware).

Description	Part Number	Tags	List Price
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 64,000 tags, 1 Thin Client</i>	EDGER-64-N-23	64,000	\$5,635
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 32,000 tags, 1 Thin Client</i>	EDGER-32-N-23	32,000	\$4,145
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 16,000 tags, 1 Thin Client</i>	EDGER-16-N-23	16,000	\$3,590
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 4,000 tags, 1 Thin Client</i>	EDGER-04-N-23	4,000	\$3,565
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 1,500 tags, 1 Thin Client</i>	EDGER-01-N-23	1,500	\$2,205
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 300 tags, 1 Thin Client</i>	EDGER-30-N-23	300	\$1,695
<b>HMI/SCADA for Desktop/Server</b> <i>Runtime Only: 150 tags, 1 Thin Client</i>	EDGER-15-N-23	150	\$695

**Aveva Edge 2023 HMI software for Windows Embedded Standard / WIN10 IoT: Runtime Only**

This package includes one Runtime Only license, with support for one Thin Client connected to the runtime station (Server). All license levels support an unlimited number of communication drivers (limited by operating system and hardware).

Description	Part Number	Tags	List Price
<b>HMI for Windows Embedded Standard</b> <i>Runtime Only: 4,000 tags, 1 Thin Client</i>	EDGEEH-04-N-23	4,000	\$1,530
<b>HMI for Windows Embedded Standard</b> <i>Runtime Only: 1,500 tags, 1 Thin Client</i>	EDGEEH-01-N-23	1,500	\$725
<b>HMI for Windows Embedded Standard</b> <i>Runtime Only: 300 tags, 1 Thin Client</i>	EDGEEH-30-N-23	300	\$560
<b>HMI for Windows Embedded Standard</b> <i>Runtime Only: 150 tags, 1 Thin Client</i>	EDGEEH-15-N-23	150	\$300

**Aveva Edge 2023 HMI software for IoTView (Linux): Runtime Only**

This package includes one runtime license, with support for one Thin Client connected to the runtime (Server). All license levels support an unlimited number of communication drivers (limited by operating system and hardware).

Description	Part Number	Tags	List Price
<b>HMI for IoTView for non-Windows operating systems (Linux)</b> <i>Runtime Only: 4,000 tags, 1 Thin Client</i>	EDGEIV-04-N-23	4,000	\$1,360
<b>HMI for IoTView for non-Windows operating systems (Linux)</b> <i>Runtime Only: 1,500 tags, 1 Thin Client</i>	EDGEIV-01-N-23	1,500	\$550
<b>HMI for IoTView for non-Windows operating systems (Linux)</b> <i>Runtime Only: 300 tags, 1 Thin Client</i>	EDGEIV-30-N-23	300	\$430
<b>HMI for IoTView for non-Windows operating systems (Linux)</b> <i>Runtime Only: 150 tags, 1 Thin Client</i>	EDGEIV-15-N-23	150	\$215

Version Upgrade (from an older version to a newer version, retaining the same tag count configuration)

**Version Upgrade – Aveva Edge 2023 HMI/SCADA software: Development and Runtime Package.**

Upgrade pricing is available for customers who want to upgrade the license from an older license version (includes Indusoft Web Studio license) to the latest version of Aveva Edge 2023 (same license level, i.e. tag count configuration).

Description	Part Number	Tags	List Price
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Dev+Runtime Package: 64,000 tags, 1 Thin Client</i>	EDGEDR-64-U-23	64,000	\$4,865
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Dev+Runtime Package: 32,000 tags, 1 Thin Client</i>	EDGEDR-32-U-23	32,000	\$3,665
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Dev+Runtime Package: 16,000 tags, 1 Thin Client</i>	EDGEDR-16-U-23	16,000	\$3,180
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Dev+Runtime Package: 4,000 tags, 1 Thin Client</i>	EDGEDR-04-U-23	4,000	\$3,145
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Dev+Runtime Package: 1,500 tags, 1 Thin Client</i>	EDGEDR-01-U-23	1,500	\$1,785

**Version Upgrade – Aveva Edge 2023 HMI/SCADA software: Development Only.**

Upgrade pricing is available for customers who want to upgrade the license from an older license version (includes Indusoft Web Studio license) to the latest version of Aveva Edge 2023 (same license level, i.e. tag count configuration).

Description	Part Number	Tags	List Price
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Development Only: 64,000 tags, 1 Thin Client</i>	EDGED-64-U-23	64,000	\$1,980
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Development Only: 32,000 tags, 1 Thin Client</i>	EDGED-32-U-23	32,000	\$1,540
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Development Only: 16,000 tags, 1 Thin Client</i>	EDGED-16-U-23	16,000	\$1,335
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Development Only: 4,000 tags, 1 Thin Client</i>	EDGED-04-U-23	4,000	\$1,320
<b>Version Upgrade</b> <b>HMI/SCADA software for Windows Desktop/Server</b> <i>Development Only: 1,500 tags, 1 Thin Client</i>	EDGED-01-U-23	1,500	\$665

**Version Upgrade – Aveva Edge 2023 HMI/SCADA software for Windows: Runtime Only.**

Upgrade pricing is available for customers who want to upgrade the license from an older license version (includes Indusoft Web Studio license) to the latest version of Aveva Edge 2023 (same license level, i.e. tag count configuration).

Description	Part Number	Tags	List Price
-------------	-------------	------	------------

**Version Upgrade****HMI/SCADA software for Windows Desktop/Server**

*Runtime Only: 64,000 tags, 1 Thin Client*

EDGER-64-U-23 64,000 \$2,820

**Version Upgrade****HMI/SCADA software for Windows Desktop/Server**

*Runtime Only: 32,000 tags, 1 Thin Client*

EDGER-32-U-23 32,000 \$2,075

EDGER-04-U-23 4,000 \$1,785

**Version Upgrade****HMI/SCADA software for Windows Desktop/Server**

*Runtime Only: 1,500 tags, 1 Thin Client*

EDGER-01-U-23 1,500 \$1,100

**Version Upgrade****HMI/SCADA software for Windows Desktop/Server**

*Runtime Only: 300 tags, 1 Thin Client*

EDGER-30-U-23 300 \$850

**Version Upgrade****HMI/SCADA software for Windows Desktop/Server**

*Runtime Only: 150 tags, 1 Thin Client*

EDGER-15-U-23 150 \$350

**Version Upgrade – Embedded HMI software for Windows Embedded Standard / WIN10 IoT: Runtime Only**

Upgrade pricing is available for customers who want to upgrade the license from an older license version (including Indusoft Web Studio license) to the latest version of Aveva Edge 2023 (same license level, i.e. tag count configuration).

Description	Part Number	Tags	List Price
-------------	-------------	------	------------

**Version Upgrade****HMI software for Windows Embedded Standard**

*Runtime Only: 4,000 tags, 1 Thin Client*

EDGEEH-04-U-23 4,000 \$770

**Version Update – Embedded HMI Standard:****HMI software for Windows Embedded Standard**

*Runtime Only: 1,500 tags, 1 Thin Client*

EDGEEH-01-U-23 1,500 \$365

**Version Upgrade****HMI software for Windows Embedded Standard**

*Runtime Only: 300 tags, 1 Thin Client*

EDGEEH-30-U-23 300 \$280

**Version Upgrade****HMI software for Windows Embedded Standard**

*Runtime Only: 150 tags, 1 Thin Client*

EDGEEH-15-U-23 150 \$155

### Version Upgrade – Embedded HMI software for IoTView (Linux): Runtime Only

Upgrade pricing is available for customers who want to upgrade the license from an older license version (including Indusoft Web Studio license) to the latest version of Aveva Edge 2023 (same license level, i.e. tag count configuration).

Description	Part Number	Tags	List Price
<b>Version Upgrade</b> <b>HMI software for non-Windows operating systems (Linux)</b> <i>Runtime Only: 4,000 tags, 1 Thin Client</i>	EDGEIV-04-U-23	4,000	\$680
<b>Version Update</b> <b>HMI software for non-Windows operating systems (Linux)</b> <i>Runtime Only: 1,500 tags, 1 Thin Client</i>	EDGEIV-01-U-23	1,500	\$275
<b>Version Upgrade</b> <b>HMI software non-Windows operating systems (Linux)</b> <i>Runtime Only: 300 tags, 1 Thin Client</i>	EDGEIV-30-U-23	300	\$215
<b>Version Upgrade</b> <b>HMI software non-Windows operating systems (Linux)</b> <i>Runtime Only: 150 tags, 1 Thin Client</i>	EDGEIV-15-U-23	150	\$115

Functional Upgrade (increasing the tag count configuration) within the same version.  
A credit for the existing license will be applied towards the cost of the new license.

- 60% credit for the existing license

### Miscellaneous

#### Additional Thin Clients

Any runtime station supports natively one Thin Client connected to it. The following part number allows you to increase the number of thin clients concurrently connected to Server. Even though the limit imposed by the licensing system is 1000 concurrent Thin Clients, physical constraints such as network bandwidth, processing power, and memory may impose lower limits.

Total Number	Part Number	List Price
<b>One additional Thin Client for “Full Runtime” Servers</b> (formally WEB-TC)	EDGETC-02-N	\$695
<b>One additional Thin Client for “Embedded” Servers</b> (Embedded HMI, Compact HMI, or IoTView) (formally WEB-TCE)	EDGETC-01-N	\$280

#### License Key

Method used to install the License. **Note: The development software or runtime license must be purchased with each USB Hardkey. Hardkeys cannot be purchased separately without the software/runtime license.**

Description	Part Number	List Price
<b>Softkey</b> <i>Available for all platforms.</i>	Included in the License	
<b>USB Hardkey for Aveva Edge 2023</b> <b>Embedded HMI, WIN10 IoT, and Compact HMI (Runtime)</b> <i>Available for Aveva Edge 2023, Embedded HMI and Compact HMI (not for IoTView).</i>	EDGEHK-01-N	\$140
<b>Metal Case USB Hardkey with Memory for Aveva Edge 2023</b> <b>Embedded HMI, WIN10 IoT, and Compact HMI (Runtime)</b> <i>Available for Aveva Edge 2023, Embedded HMI and Compact HMI (not for IoTView).</i>	EDGEHK-03-N	\$275

Import Wizards to enhance the development environment interface by converting applications into Aveva Edge 2023.

Description	Part Number	List Price
<b>Import Wizard:</b> Converts applications created with the PanelBuilder PanelMate and/or FactoryTalk ME/SE software to Aveva Edge 2023 (formally WEB-IMP-WIZ)	EDGEIW-01-N	\$1,185
